

T5 WOMBAT

PRODUCT UPDATE

MINIATURE GPS LOGGING SOLUTION

T5-Cased

ULTRA LOW POWER - WIDE VOLTAGE INPUT
FULL FEATURED BLUETOOTH SMART APP

Long or short term logging of selected targets or assets—hostile or friendly—the T5 gives outstanding low energy performance and is the ideal intelligence gathering solution.

Available in two variants, the **T5-Cased** is an all-in-one solution with integrated 240mAh rechargeable battery which can be used as the main power supply or as *battery backup* during potential power outages, and the **T5-Core** which is uncased and ready for concealment in vehicles and everyday objects like bags, packages, clothing and more.

T5 WOMBAT CONTROL APP

- ✔ Control multiple job specific triggers and actions via  **Bluetooth** (BLE /Android)
- ✔ Uses Open Street Maps
- ✔ Triggers: Timers (4), Geofences (4), Movement (1), Voltage (1), Closed contact (1)
- ✔ Triggers can enable the following actions:
 - Logging (choice of 4 rates), Relay output (1), Bluetooth, Battery charger (T5-Cased).

T5-Core

Product	Dimensions	Op. voltage	Op. temp	Operating current		Sleep
T5-Cased	57 x 24 x 13mm 2.25 x 0.9 x 0.5 in.	3 to 28v DC	-15 to 55C / 5 to 131F	≈3mA Bluetooth idle	≈20mA Tracking	≈130μA
T5-Core	25 x 18 x 2mm 0.9 x 0.7 x 0.08 in.	2.5 to 5.2v	-20 to 70C / -4 to 158F	≈3mA Bluetooth idle	≈20mA Tracking	≈130μA

- Miniature form-factors
- Zero self-originating RF transmission when deployed
- Accurate & continuous low-energy position logging
- Log 170 000 + time/date stamped points
- Wide 3 to 28v input range with integrated charger - **T5-Cased**
- Confirms the quality of position fix during installation
- KML play-back of previously downloaded logs via Google Earth
